Poster Session 1, Tuesday, June 18, 2019
7:00-8:30 pm

Aging

0001 Mail-based Stool Collection in Women with and without Age-Related Macular Degeneration
Amy E. Millen

0002 Exploring Potential Mediators Between Fear of Falling (FOF) and Falls: A Longitudinal Mediation Analysis
Afshin Vafaei

0003 Tobacco Smoking and Dementia in a Kentucky Cohort: A Competing Risk Analysis
Erin L. Abner

0004-S/P Prediction of 10-year mortality in a cohort of community-dwelling older adults in Hong Kong
Io-Ieong Chan

0005-S/P Repeat fall injury and subsequent death among older adult fallers: a statewide longitudinal study
Kevin Kwan

006 Sex Disparities in the association between Subjective Cognitive Decline and Life Satisfaction: Results from a Population-Based Sample
Monique J. Brown

0007 Impact of disease screening on awareness and management of hypertension and diabetes among middle-aged and older Chinese: a four-year prospective study
L.H. Lumey

Alternative Medicine

0010-S/P A long term effect for incidence of sepsis with amlodipine use in Taiwan
Yun-Cheng Chen

Behavior

0020-S/P Are low income children more physically active when they live in homes with bigger yards? A longitudinal analysis of the NET-Works Study.
Jonathan Miller

0021-S/P Childhood Chemical Hair Product Usage and Early Menarche among African-American Women: Findings from the Study of Lifestyle, Environment, and Fibroids
Symielle A. Gaston

0022 Longitudinal Survey in Japan to Assess the Patterns of Product Use Over Time in Cigarette Smokers and IQOS Users
Zheng Sponsiello-Wang

Big Data

0030-S/P Identification of systemic lupus erythematosus subgroups using electronic health record and genetic databases
Milena Gianfrancesco

0031-S/P Comparing traditional and algorithmic-based approaches to confounder identification: a methodological application to estimating the effect of autoimmune diseases on 30-day mortality among ICU patients with sepsis
Corey M. Benedum

Cancer

0040 Mechanism of Detection of Thyroid Cancer among World Trade Center-Exposed Rescue and Recovery Workers
Rachel Zeig-Owens

0041-S/P The association between waist circumference and gastric cancer development: A Two sample Mendelian randomization analysis
SangJun Lee
Impact of Changes in Lung Cancer Histologic Classification and Staging on Survival Trends by Stage in SEER
Rebecca Ehrenkranz

Association of absolute lymphocyte count and cancer incidence and mortality: the atherosclerosis risk in communities (ARIC) study
Guillaume Onyeaghala

Familial clustering in breast cancer age of onset
Ann Von Holle

Dicamba use and cancer incidence in the Agricultural Health Study: An updated analysis
Catherine Lerro

In utero and neonatal exposures and later risk of young-onset breast cancer
Mary Diaz-Santana

Premenopausal use of progestogens and cutaneous melanoma risk: a French prospective cohort study
Iris Cervenka

Applying an Operations Management Framework to the RIC Study Cancer Registry Linkage Process to Increase the Return on Investment
Lisa M. Moy

Changes in use of opioid therapy after colon cancer diagnosis
Lu Chen

Examining the relationship between comorbidity treatment and patient-reported health-related quality of life (HRQOL) among cancer patients: A Surveillance Epidemiology and End Results and Medicare Health Outcomes Survey (SEER-MHOS) analysis
Melissa Bruno

Risk Factors for De Novo and Therapy Related MDS
Rina Yarosh

The association between components of metabolic syndrome and the risk of colorectal cancer in Chinese males: a population-based prospective study
Xin Li

Population-level referral patterns for catheter ablation in patients with atrial fibrillation and comorbid heart failure
Michelle Samuel

Random Survival Forest Identifies Key Factors Predicting Chronic Kidney Disease Progression: The Chronic Renal Insufficiency Cohort (CRIC) Study
Zihe Zheng

Cardiovascular disease risk factors after cancer diagnosis: Findings from the Hispanic Community Health Study/Study of Latinos (HCHS/SOL)
Molly Scannell Bryan

The Role of Aspirin in the Relationship Between Hypertensive Disorders of Pregnancy and Incident Maternal Cardiovascular Disease
Jennifer Stuart

Physical Activity, Cardiovascular diseases and Mortality Mediated by Diabetes in Elderly Mexican Americans
Kosuke Inoue

Prevalence and risk factors for asymptomatic peripheral artery disease in 2.2 million adults in the UK and USA
Luis Regalado

Incidence and relative risk for cardiovascular disease in metabolic disease comorbidity
Seokyung An

Diabetes
0070-S/P  Treatment-based Approach for Diabetes Type Identification in Health Surveys and Registries
Mitra Mosslemi

0071  Associations between individual and community factors and type 2 diabetes onset in Pennsylvania
Annemarie G. Hirsch

0072-S/P  Genetic Risk Score of Type 2 Diabetes and Progression Risk from Gestational Diabetes to Type 2 Diabetes: Results from Two Independent Populations
Mengying Li

0073-S/P  A Survey Examining Diabetes Risk-Based Screening by Health Care Providers in Guam
Victoria Flisco

Environment/Climate Change

0080  Air pollution and particulate matter composition in relation to epigenetic age
Alexandra J. White

0081-S/P  Associations of Toxic Metal Biomarkers with Cytomegalovirus in the US Population
Catherine Bulka

0082-S/P  Elevated Blood Lead Levels among Resettled Refugee Children in Ohio, 2009 – 2016
Madhav P. Bhatta

0083-S/P  Interaction of allergens and plasma folate on severity of allergic and autoimmune diseases
Yu-Cheng Kuo

0084-S/P  Exposure to metal mixtures and growth-related traits in Bangladeshi children aged 5-7 years
Yu-Hsuan Shih

Genetics

0090-S/P  Genetic causal attribution and psychosocial impact of epilepsy
Diana Garofalo

0091-S/P  Maternal blood pressure and differential placental DNA methylation
Tsegaselassie Workalemahu

Global Health

0100  Substance use disorders among cocaine paste users of the Metropolitan Area of Santiago, Chile
Alvaro Castillo-Carniglia

0101-S/P  Examining the delivery and dosage of caregiving interventions and caregiving practices in rural Bangladesh
Helen O. Pitchik

0102  Childhood trauma and later-life cognitive function in “Health and Ageing in Africa: Longitudinal Study of an INDEPTH Community in South Africa” (HAALSI)
Lindsay Kobayashi

Health Disparities

0110-S/P  Application of a multidimensional rural index to determine the effect of rurality on county colorectal cancer mortality
Blake Buchalter

0111-S/P  Socioeconomic status and asthma prevalence disparities among Native Hawaiian/Other Pacific Islander, Asian, and White adults in the United States – Findings from the Behavioral Risk Factor Surveillance System (BRFSS), 2001–2010
Holly Jessop

0112-S/P  Racial Disparities in the Control of Hypertension and the Mediating Role of Residential Segregation: the Brazilian Longitudinal Study of Adult Health (ELSA-Brasil)
Joanna MN Guimaraes

0113  Effect of regional characteristics in socioeconomic disparities for cancer mortality, Chile, 2016
Maria José Monsalves
Geographical variations and factors associated with childhood measles vaccination in Ethiopia: a spatial and multilevel analysis
Tesfahun Taddege

Socioeconomic inequalities in childhood-to-adulthood BMI tracking in three British birth cohorts
Tom Norris

Gender Differences in Gulf War Illness: A Re-analysis of Data from the CDC Air Force Study using CDC and Kansas Case Definitions
Vahe Heboyan

Perceived Racism and Self-rated Oral Health in US Black Women
Yvette C Cozier

Health Services/Policy

The Role of Social Capital in Improved Mental Health and Economic Well-being in Caregivers with Depression on Public Assistance
Pam Phojanakong

Healthcare Providers' Use of Motivational Interviewing for Childhood Obesity, DocStyles, United States 2015
Samantha J. Lange

HIV / STI

Vision difficulty in aging HIV-infected men and the health consequences
Alison Abraham

Investigation of Adverse Childhood Experiences and HIV Screening Behaviors among Adults in Tennessee
Elaine Loudermilk

HIV remains a disease of the poor and multiply deprived
Mark Pearce

Infectious Disease

Predictors of invasive candidiasis among laboratory positive Candida encounters: machine learning applied to a large US electronic health record (EHR) database
Emily E. Ricotta

How labour intensive is latent TB management? Using time and motion studies to estimate labour needs for LTBI scale-up
Hannah Alsdurf

Spatial and temporal analysis of salmonella enteritidis outbreaks in USA, 1990-2015
Azam Ali Sher

Effects of hepatitis B birth dose on childhood immunization status: an investigation using complex survey data and propensity scores estimated with boosted regression
Daniel Vader

Performance of Commercial Enzyme Immunoassay (EIA) and Polymerase Chain Reaction (PCR) Tests for Rapid Detection of Shiga Toxin-producing Escherichia coli: A Systematic Review and Meta-Analysis
Gillian AM Tarr

Joanne K Taylor

Hepatitis B and C Infection among Participants of a Syringe Services Program in Philadelphia, PA
Mary Figgatt

Genetic Characteristics and Molecular Epidemiology of Drug Resistant and Pan-Susceptible Escherichia coli ST95 Isolates
Yuan Hu

Suicides in New York City, 2007 to 2016  
**Eve Tang**

Examining interactions by mental coping ability and cleanup participation in the relationship between oil spill exposure and depression severity  
**John A Kaufman**

Systematic review of multiple sclerosis progression and mental health among smokers  
Michaela F. George

Lack of Association between Sex and Disclosure of a Need for Workplace Accommodations for Mental Health Disorders  
**Nyasha Makuto**

The Effect of Self-Perceived Hope on Posttraumatic Stress Symptoms Among Youth Survivors of the 2015 Nepal Earthquakes  
**Sarah Forthal**

Trends in incidence of mental disease with sleep disorder in Taiwan: a 14-year long term descriptive study  
**Yu-Chan Liao**

The mediating effect of sleep disturbance on the relationship between asthma attack and cognitive impairment in adults with asthma  
**Zheng Li**

Clinical Depression, Antidepressant Use, Metabolic Syndrome and their relationship with Cardiovascular Diseases  
**Surim Son**

---

**Methods/Statistics**

Quantile treatment effects (QTE) as a non-parametric method for potential outcomes  
**Hayden Smith**

Implementation of Data Quality Strategies in the National Spina Bifida Patient Registry  
**Priya Patel**

The K nearest neighbor algorithm for imputation of missing prenatal alcohol data in a longitudinal study  
**Ayesha Sania**

Can Case-Control Data Be Used to Study Common Effects?  
**Julie M. Petersen**

Data missing at random (MAR) as a machine learning prediction problem  
**Hayden L. Smith**

Misclassification of a collider: a simulation study  
**Sydney K. Willis**

Sensitivity analysis for the risk function  
**Alexander Breskin**

Risk ratio models for analyzing multinomial outcomes  
**Alok Kumar Dwivedi**

Case-control analyses using nearest-neighbor matching  
**Beau B Bruce**

Use of risk bounds to quantify potential bias in absolute risk estimates due to competing events: an application to survival with birth defects  
**Dominique Heinke**

The Rasch measurement of the Bridging Social Capital Questionnaire  
**Ester Villalonga Olives**

Multilevel temporal analysis of repeated cross-sectional survey data - Diabetes and the county environment  
**Justin Feldman**

Collider ‘bias’ in compositional data – menacing or misunderstood?  
**Kellyn F Arnold**
Measurement error correction of self-reported smoking in the Gulf Long-Term Follow-up (GuLF) STUDY using ensemble machine learning.

Nathaniel MacNell

Estimation of Time-Dependent Predictive Accuracy in the Presence of Competing Risks

Rajib Dey

Estimating counterfactual risk of ischemic heart disease mortality under hypothetical interventions on particulate matter exposure in the American Manufacturing Cohort

Sadie Costello

Duplicate Pattern and Duplicate Publication Bias among Chinese-Sponsored Drug-Related Randomized Controlled Trials

Yuanxi Jia

Systemic inflammation and risk of Alzheimer’s disease: a bi-directional Mendelian Randomization study

Chris Ho Ching Yeung

Emulating a target trial of statin initiation and risk of dementia

Ellen C. Caniglia

Using Probabilistic Bias Analysis to Re-examine the Obesity Paradox in Chronic Kidney Disease Mortality

Melissa Soohoo

Flavonoids, and flavonoid subclasses intakes and breast cancer risk: a case-control study in China

Cai-Xia Zhang

Dietary intake and blood lead concentrations among 12-36 month-old participants of the 2009-2014 NHANES

Gauri Desai

Food intake and blood levels of mercury, lead, and cadmium among healthy reproductive aged women

Keewan Kim

Meal Timing, Distribution of Macronutrients, and Inflammation among African-American Women

Michael Wirth

Abnormal metabolic components clustering and associated individual habitual behaviors – a nationwide adolescent study in Taiwan

Wei-Ting Lin

An ecological study of the association and spatially varying relationship between extreme obesity and mortality rates among adults in the United States

Carrie W. Mills

The effects of heat illness events on medical non-readiness in the U.S. Army

Alexis Maule

Traumatic injury and time to separation from military service in Active Duty Enlisted Army Soldiers

Caitlin Haven

Ja Kook Gu

Validity of Retrospective Occupational Exposure Estimates of Lead and Manganese in a Case-Control Study

Jean-François Sauvé
0244-S/P  The effect of supervisor training program on work related musculoskeletal disability costs and workers’ self-reported outcomes.  
Neha Dewan

0245-S/P  The impact of midlife job loss on self-injury mortality in a cohort of autoworkers; application of a novel causal approach  
Suzanne Dufault

Other

0250  Community and In-hospital Acquired Acute Kidney Injury in the Clinical Emergency Department at an University Tertiary Hospital: Comparison of Frequency and Outcomes by Different Diagnosis Criteria  
Dirce Maria Trevisan Zanetta

0251  Attempt to modernize epidemiological concept of health status in health promotion practice  
Hideo Yamazaki

Perinatal & Pediatric

0260-S/P  Prenatal Exposure to organophosphate and pyrethroid pesticides and birth outcomes in Urban Pregnant Women  
Arin A. Balalian

0261  Factors in the hospital experience associated with postpartum breastfeeding success  
Karen Schliep

0262-S/P  Lung function and birth weight: Two-sample Mendelian randomization study  
Baoting He

0263-S/P  Low Cigarette Consumption Before and During Pregnancy in Relation to Risk of Preterm Birth: A Large Population-Based Study with 22 Million Mother-Infant Pairs  
Buyun Liu

0264-S/P  The effect of phototherapy on breastfeeding  
Jean Digitale

0265  Leisure-time physical activity before and during pregnancy and preterm births in South Carolina, 2009-2015  
Jihong Liu

0266-S/P  An Evaluation of Zika Birth Defects Surveillance: A model for rapid surveillance of birth defects during an emergency response — United States, 2018  
Kathleen H. Krause

0267  Factors associated with the trajectory of gestational weight gain: a multilevel analysis  
Kohta Suzuki

0268  History of early-life cancer and risk of adverse pregnancy and neonatal outcomes  
Leslie V. Farland

0269  Association of Demographic and Clinical Factors With the Pre-Zika Time Trend of Microcephaly in Texas, 1999-2014  
Peter H Langlois

0270-S/P  Gestational weight gain and pregnancy outcomes in women with chronic hypertension  
Sylvia E Badon

0271-S/P  Maternal diabetes during pregnancy and arterial cardiovascular disease in offspring  
Yongfu Yu

Pharmacoepidemiology

0280  Clinical comparison of fentanyl and morphine for pain control in non-critically ill adults  
Audrey Herring

0281-S/P  Dose-response effect for incidence of sepsis with the use of hydrochlorothiazide in Taiwan  
Chen Chen-Li
Risk of neonatal abstinence syndrome following prenatal exposure to methadone or buprenorphine

Mollie Wood

Liposomal bupivacaine for total knee arthroplasty

Audrey A. Herring

Reproductive

Adiposity and endometriosis severity and typology

Karen Schliep

Trends in first trimester nausea and vomiting of pregnancy and use of select treatments: Findings from the National Birth Defects Prevention Study

Nina Schrager

Analgesic use around the times of ovulation or implantation and fecundability

Anne Marie Jukic

Atoquavone-proguanil exposure in pregnancy and risk for adverse fetal and infant outcomes

Clinton Hall

Dietary folate intake and fecundability in two preconception cohort studies

Ellen Margrethe Mikkelsen

Dietary fat intake, erythrocyte fatty acids, and risk of uterine leiomyoma

Holly R. Harris

Urinary bisphenol S concentrations: potential predictors and associations with semen quality parameters among men attending a fertility center.

Lidia Minguez Alarcon

The role of maternal age and pregnancy history in risk of miscarriage

Maria C. Magnus

Preconception marijuana use and pregnancy outcomes

Sunni Mumford

Social

Socioeconomic status and colorectal cancer screening behaviors in a vulnerable multiethnic population

Eduardo J. Santiago-Rodriguez

Controlled direct effects of occupational class on depression risk after accounting for wages: an application of the longitudinal parametric g-formula

Holly Elser

Relationship between maternal education and major birth defects, Texas, 2005-2015

Peter Langlois

Childhood adversity and indicators of immune and epigenetic aging in adulthood

Rae Anne Martinez

Racial/ethnic differences in the association between neighborhood context and early childhood growth patterns in a US safety-net population

Sarah B. Andrea

Substance Use

Impact of alcohol and substance use on systolic blood pressure among people living with HIV

Barbara H Harding

How much of the decline in adolescent smoking is off-set by new nicotine delivery systems? Estimating the influence of vaping on trends in adolescent smoking

Katherine Keyes

Association of Overdose and Injection Practices with Drug Use Typologies: A Latent Class Analysis among People who Inject Drugs in Baltimore, 2017

Rachel E. Gicquelais
Beomyoung Cho

Alcohol Law Enforcement Activities By Community Type
Collin Calvert

Marijuana smoking and outcomes of infertility treatment with assisted reproductive technologies
Feiby Nassan

E-cigarette use and sleep-related complaints among U.S. youth
Kira E. Riehm

Marijuana and Moms: Pregnant women’s knowledge, attitudes, and experiences with prenatal caregivers regarding marijuana.
Mark Klebanoff

Assessment of Polysubstance Use during Opioid Use Disorder Treatment in the United States: A Systematic Review
Mirinda Gormley

Natasha Sokol

Excess mortality among first-time offenders of ketamine use in Taiwan: a 3-year standardized mortality ratio study among the national cohort from 2009 to 2013
Wei J. Chen

A latent class analysis of drug and substance use patterns among patients treated in emergency departments for suspected drug overdose
Stephen Liu

A systematic evaluation of epidemiology of consequence, 2013 – 2018
Janene Brown

Blood DHEA and DHEA-S as potential biomarkers for chronic pain in women: findings from a national sample of US adults
Rui Li

The association between women’s inter-birth intervals and cancer incidence
Yiska Loewenberg Weisband

Hormone profile phenotypes in peripubertal girls, a novel approach using principal components and cluster analysis in a longitudinal cohort
Cecily Fassler

Association between estrogens and self-reported hot flashes and vaginal dryness in postmenopausal women randomized to the MAP.3 chemoprevention trial
