

Poster Session 1, Tuesday, June 10th
7:30-8:30pm

Poster Number	Primary Category	Presenting Author	Author Status	Title
5	Aging	Fiona Bhondoeckhan	Student/PostDoc	Disparities in nonpharmacologic chronic pain treatments for older adults with Alzheimer’s disease and related dementias
9	Aging	RoiSan Nhpang	Student/PostDoc	The Impact of Loneliness on Insomnia and Depression among Older Adults: Role of Smoking in these Associations
11	Aging	Hilary L. Colbeth	Student/PostDoc	The impact of life course socioeconomic status on incident dementia among the oldest-old in the LifeAfter90 Study
14	Aging	Ruijia Chen	Student/PostDoc	Lifecourse Socioeconomic Position and Cognitive Function: Leveraging Intergenerational Data from the Framingham Heart Study
19	Aging	Bryan James	Student/PostDoc	Identifying Medicare provider characteristics associated with timely dementia diagnosis
24	Aging	Jillian Baker	Student/PostDoc	Exploring the sex-specific differences in the association between grip strength and HbA1c in a nationally representative sample of US midlife and older adults
29	Aging	Anna Kosaka	Student/PostDoc	Adverse Childhood Experiences and social isolation in older adults : JAGES 2016-2019
38	Aging	Zhiyong Lin	Non Student/PostDoc	Social Isolation and Risk of Dementia: Do Race-Ethnicity and Gender Matter?
40	Aging	Nancy X Chen	Student/PostDoc	The mediating effects of depressive symptoms in the association between subjective and objective cognitive decline: Findings from LifeAfter90 and STAR
44	Aging	Jeffrey Liu	Student/PostDoc	Association Between Consuming Food Prepared Away from Home and Epigenetic Age Acceleration among Older Adults
47	Aging	Naiki Kondo	Non Student/PostDoc	Assessing Multidimensional Health in Older Adults: Insights from Wave 8 of the Survey of Health, Aging and Retirement in Europe (SHARE)
52	Aging	Yi Lor	Student/PostDoc	The effect measure modification of stroke belt birth states on brain biomarkers and cognitive decline
57	Aging	Shelli Vodovozov	Student/PostDoc	Longitudinal Analysis on the Impact of Generation and Age of Immigration on Later Life Cognitive Performance in KHANDLE
59	Aging	Marzan A. Khan	Non Student/PostDoc	Agreement Between Fingerstick Blood Glucose and Continuous Glucose Monitor Measurements Among Long-Term Care Facility Residents
60	Aging	Allison Musty	Non Student/PostDoc	Nine-year frailty transitions in older cancer survivors in the National Health and Aging Trends Study (NHATS)
63	Aging	Yu-Kai Lin	Non Student/PostDoc	The Relationship Between Fall History and Early-Onset Dementia: A 10-Year Prospective Cohort Study
65	Aging	Sherry Hou	Student/PostDoc	The effects of family caregiving and cash transfers on probable depression among older adults in the Survey of Health, Ageing and Retirement in Europe (SHARE): simulation u
68	Aging	Meng Pan	Student/PostDoc	Healthcare utilization and morbidity preceding a dementia diagnosis. The Atherosclerosis Risk in Communities (ARIC) Study.
69	Aging	Tracy Lam-Hine	Student/PostDoc	Prevalence of cognitive impairment among older Multiracial adults in California, 2021
84	Behavior	Snehal M Pinto Pereira	Non Student/PostDoc	Unpicking causal relationships between grip strength and cardiorespiratory fitness: a bidirectional Mendelian randomisation study
86	Behavior	Khandakar Fatema	Non Student/PostDoc	Association Between Preventive Behavior for Infectious Diseases and Social Determinants of Health in a multiethnic community of Bangladesh
89	Behavior	Marcus Vinicius Nascimento Ferreira	Non Student/PostDoc	Unsupervised Machine Learning Identifies Hidden Movement Behavior Patterns Linked to Metabolic Syndrome in Multiracial/Ethnic College Students: The 24h-MESYN Study
101	Big Data/Machine Learning/AI	Asef Raiyan Hoque	Non Student/PostDoc	Machine Learning Models for Predicting Prescription Opioid Misuse Among U.S. High School Students: Links with Selected Risky Health Behaviors
102	Big Data/Machine Learning/AI	Julianna C. Hsing	Student/PostDoc	Feasibility of smartphone-based digital phenotyping in the 3E cohort of emerging adults
103	Big Data/Machine Learning/AI	Ransome Eke	Non Student/PostDoc	Investigating Factors Driving Frequent Online Medical Record Access Among U.S. Adults Using Machine Learning: Analysis of the HINTS Survey
105	Big Data/Machine Learning/AI	Yi-Hsuan Lin	Student/PostDoc	Trend in incidence rates of Iron deficiency anemia in Inflammatory bowel disease patients: a 14-year descriptive study in Taiwan
112	Big Data/Machine Learning/AI	A. Kofi Amegah	Non Student/PostDoc	Spatial variability in the association of ambient PM2.5 exposure with child undernutrition in Sub-Saharan Africa
120	Big Data/Machine Learning/AI	Audêncio Victor	Student/PostDoc	Differential Diagnosis of Bacterial Meningitis Using Machine Learning Models
122	Big Data/Machine Learning/AI	Toshiaki Komura	Student/PostDoc	Two-Step Pragmatic Subgroup Discovery for Heterogeneous Treatment Effects Analyses: Novel Framework Toward Enhanced Interpretability
123	Big Data/Machine Learning/AI	Amani F. Hamad	Non Student/PostDoc	Predicting Ischemic Heart Disease Risk Using Family Health Histories from Electronic Healthcare Records
129	Big Data/Machine Learning/AI	Tiago Almeida de Oliveira	Student/PostDoc	CARDIOVASCULAR HEALTH PREDICTION IN CHILDREN USING MACHINE LEARNING
131	Big Data/Machine Learning/AI	Teresa M. Janevic	Student/PostDoc	Understanding AI use in epidemiology education: attitudes, predictors, and implications
132	Big Data/Machine Learning/AI	Carine Savalli	Student/PostDoc	Machine Learning Algorithms to Predict Subclinical Small Vessel Brain Lesions based on cardiovascular health: Insights from the ELSA-Brasil study
143	Cancer	Geetanjali Datta	Non Student/PostDoc	HPV vaccination beliefs and cancer screening among sexual and gender minorities: Potential cancer prevention opportunities from community engagement
150	Cancer	Shenghui Wu	Non Student/PostDoc	Food Environment Index and Pancreatic Cancer Survival in North Carolina
152	Cancer	Olufunmilayo Babarinde	Student/PostDoc	Urinary Heavy Metal Mixtures and Colorectal Cancer Incidence: Pilot Results from the Louisville Environmental Assessments Pilot Study (LEAPS) in Colorectal Cancer
153	Cancer	Vladimir Jolidon	Student/PostDoc	Cancer Prevalence Across Ethnicity-Education-Deprivation Subgroups: An Intersectional Analysis
154	Cancer	Amelia Nichols	Student/PostDoc	Disparities in oropharyngeal cancer survival outcomes between individuals living with and without HIV
157	Cancer	Jennifer Mongiovi	Student/PostDoc	Plasma metabolomic profiles associated with breastfeeding history and subsequent ovarian cancer risk
165	Cancer	Britton Trabant	Non Student/PostDoc	Temporal patterns of uterine and ovarian cancer incidence rates in Utah after correcting for gynecologic surgeries
168	Cancer	Christina Joshua	Student/PostDoc	The Association Between Working with Poultry and Esophageal Cancer Mortality; A Case-cohort Study
174	Cancer	Isobel Jackson	Student/PostDoc	Temporal changes in modifiable risk factors of breast cancer in the Generations Study
175	Cancer	Josiane Kabayundo	Student/PostDoc	The Mediating Effect of Socioeconomic Status and Persistent Poverty on Pediatric Cancer Mortality in the USA
178	Cancer	Darcy Van Deventer	Student/PostDoc	Prenatal pesticide exposure and neuroblastoma – A statewide case-control study in California
179	Cancer	Cheng Peng	Non Student/PostDoc	Pre-diagnostic circulating carotenoids and lethal breast cancer risk: a novel approach for precision prevention
197	Cancer	Saeed Akhtar	Non Student/PostDoc	Sex disparities in hepatocellular carcinoma risk, net survival and relative survival ratio in a middle eastern country: 2008-2020
199	Cancer	Yong Zhu	Non Student/PostDoc	Illuminating Cancer Risk: Light at Night as a Potential Contributor to Hormone-Related Cancers
200	Cancer	Kaori Suga	Student/PostDoc	Community-Level Social Capital and Well-Being Among Older Adults in Japan: Effect Modification by Cancer and Other Chronic Diseases
201	Cancer	Emma Joo	Student/PostDoc	Improving Cancer Surveillance: Estimating Hysterectomy-Corrected EC Mortality and Disparities in the US (2003-2020)
205	Cancer	Yuelin He	Student/PostDoc	Social and Intersectional Inequalities in Emergency Presentation (EP) of Cancer among Older Adults in the US
209	Cancer	Dongwon Yoon	Student/PostDoc	Association between Cancer and Incident Autoimmune Diseases among Older Adult Population in the U.S.
217	Cancer	Sinead Flanagan	Non Student/PostDoc	Approaches to Assessing Prognostic Biomarkers: An example with the Proliferation Marker Ki-67 in Prostate Cancer.
220	Cancer	Sun Ha	Non Student/PostDoc	Cancer-Specific Standardized Incidence Ratio in a Cohort of Health Screening Participants in Korea
221	Cancer	Dazhe Chen	Student/PostDoc	Ingested nitrate and nitrite and incidence of thyroid cancer in the Agricultural Health Study
222	Cancer	Dalila Coimbra	Non Student/PostDoc	Lung Cancer Survival in Texas: Analyzing Histological Subtypes and Sociodemographic Influences
233	Cardiovascular	Guixiang Zhao	Non Student/PostDoc	Association of Coronary Heart Disease and Stroke with Adverse Social Determinants of Health and Health-Related Social Needs Among US Adults Aged ≥18 Years
239	Cardiovascular	Pei-Wen Wu	Non Student/PostDoc	Longitudinal patterns of cardiovascular-kidney-metabolic syndrome in adolescents: Assessments of transition dynamics and clinical determinants
241	Cardiovascular	Linzi Li	Student/PostDoc	Effect of replacing sedentary behavior with physical activity on the risk of atrial fibrillation: the REGARDS study
245	Cardiovascular	Yuanqing Xia	Student/PostDoc	Cost-Effectiveness Analysis of Statins, Berberine and Their Combined Use for Primary Prevention of Cardiovascular Disease
246	Cardiovascular	Isabella Ferlini Cieri	Student/PostDoc	Relationship Between Body Mass Index and ADP MA (Maximum Amplitude) in Deep Vein Arterialization Patients Using TEG-PM
249	Cardiovascular	Jenilee Cueto	Student/PostDoc	Association of Neighborhood Deprivation and Carotid Intima-Media Thickness in the Bogalusa Heart Study Cohort

252	Cardiovascular	Ugochinyere Vivian Ukah	Non Student/PostDoc	Racial and sex disparities in the association between stressful life events and cardiovascular disease
253	Cardiovascular	Kerri S Ivey	Student/PostDoc	Association Between State-Level Policies and Stroke Mortality
256	Cardiovascular	Rachel Zmora	Non Student/PostDoc	Agreement between parent and adolescent report of adolescent cardiovascular health behaviors: The Young Hearts Study
263	Cardiovascular	Garrett Jordan	Student/PostDoc	The Moderating Role of Physical Activity on the Association Between Waist Circumference and Heart Failure: The Jackson Heart Study
264	Cardiovascular	Lulu Zhang	Non Student/PostDoc	Sexual violence and risk of hypertension in the Black Women’s Health Study
266	Cardiovascular	Vaishnavi Jahagirdar	Student/PostDoc	Analyzing clinical trajectories of patients with hypertension and/or cardiovascular disease diagnoses and/or antihypertensive drug prescriptions using data from electronic health records
281	Causal Inference	Yingxi Chen	Non Student/PostDoc	Association of polygenic risk score for habitual alcohol intake with all-cause mortality
285	Causal Inference	Sophia Fuller	Non Student/PostDoc	Frailty and adverse surgical outcomes: exploring the mediating pathway through Enhanced Recovery After Surgery protocols
287	Causal Inference	C Mary Schooling	Non Student/PostDoc	Survivorship as a source of confounding, selection bias and effect modification
294	Causal Inference	Ka Kei Sum	Student/PostDoc	The use of Mendelian randomization to explore the causal consequences of childhood maltreatment: consideration of assumptions and challenges
310	Causal Inference	Tony Cappello	Non Student/PostDoc	Paraquat exposure and Parkinson’s Disease: A meta-analysis stratifying by decade of publication, study design, and adjustment for history of head injury
322	COVID-19 Pandemic	Magdalena Dorvil-Joanem	Non Student/PostDoc	Freezing data to increase efficiency within the COVID-19 program in Tennessee.
323	COVID-19 Pandemic	Cheyenne van Hagen	Student/PostDoc	The impact of SARS-CoV-2 on fatigue and quality of life: prevalence of post COVID-19 condition in a Dutch population-based serosurveillance cohort in the first year of the pandemic
333	COVID-19 Pandemic	Ning Zhang	Student/PostDoc	Nirmatrelvir-ritonavir (Paxlovid) Initiation Timing and Completion During Acute COVID-19
336	COVID-19 Pandemic	Uwe Riedmann	Student/PostDoc	Estimates of underlying health biases in SARS-CoV-2 vaccination recipients: a nationwide study in previously-infected adults
337	COVID-19 Pandemic	Michael Hawkings	Student/PostDoc	COVID-19 and new-onset autoimmune mediated gastrointestinal illness: a database cohort study conducted in England
339	COVID-19 Pandemic	Shuko Takahashi	Non Student/PostDoc	Factors associated with changes in perceived importance of COVID-19 vaccination: Insights from a longitudinal survey in Japan
344	COVID-19 Pandemic	Bridget Murphy Hussain	Non Student/PostDoc	The Relationship Between Disordered Eating Behaviors and the Pandemic Among Undergraduate Students: A Systematic Review
352	COVID-19 Pandemic	Kathryn Shea	Student/PostDoc	Small Area Estimation of County-Level COVID-19 Cases by Incorporating Social Determinants of Health and Spatial Correlation
370	Diabetes	Wei-Ting Chen	Student/PostDoc	Association between exposure to air pollution and acute complications of diabetes
371	Diabetes	Yi-Ting Wu	Student/PostDoc	Association between fertility situation and diabetes among women in Taiwan
378	Diabetes	Kirsha S Gordon, PhD	Non Student/PostDoc	Alcohol use among Veterans with type 2 diabetes who do and do not receive GLP-1 analogs
382	Diabetes	Miho Hara	Student/PostDoc	Social factors and diabetes follow-up visits after screening in Japan: a cohort study based on the JPHC-NEXT study
430	Diversity and Inclusion	Lindsay Fernandez-Rhodes	Non Student/PostDoc	An Intersectional Perspective on Promoting Diversity and Inclusion: Reasons for Differential Impacts of COVID-19 on Productivity among a Sample of Epidemiologists and Public Health Researchers
454	Environment/Climate Change	Yu Ni	Non Student/PostDoc	Health Impacts of Tijuana River Pollution: Preliminary Results from A Community-Based Survey on Environmental and Public Health Challenges
459	Environment/Climate Change	Anna Palmer	Student/PostDoc	The effect of drought on the rate of child marriage in 61 countries
469	Environment/Climate Change	Meghan Angley	Non Student/PostDoc	Residential radon exposure and birth weight
472	Environment/Climate Change	Sneha Kannoth	Student/PostDoc	Examining Interaction on an Additive Scale between Short-Term Ambient Air Pollution Exposure and Cardiovascular Disease for Risk of Adverse COVID-19 Outcomes
474	Environment/Climate Change	Hayon Michelle Choi	Student/PostDoc	Preconception, pregnancy, and early childhood exposure to greenspace and risk of neurodevelopmental delays: a national birth cohort study among Medicaid enrollees
475	Environment/Climate Change	Yaguang Wei	Non Student/PostDoc	Ambient air pollution and mortality in older breast cancer patients
480	Environment/Climate Change	Tom Fischer	Student/PostDoc	Interaction between social deprivation and air pollution on mortality in hexagonal France: A nationwide analysis, 2018-19.
484	Environment/Climate Change	Yijia Zhang	Non Student/PostDoc	County-level radon and offspring wheezing and asthma
489	Environment/Climate Change	Shabnaz Siddiq	Student/PostDoc	Trajectories of prenatal phthalate exposure and associations with gestational weight gain and infant birthweight – Findings from an Ethnically Diverse U.S. Pregnancy Cohort (ECHO)
490	Environment/Climate Change	Amira Aker	Non Student/PostDoc	Mediation of immunological markers in the association between per- and polyfluorinated substances (PFAS) and respiratory outcomes among Inuit adults
494	Environment/Climate Change	Mariam Oladosu	Student/PostDoc	Associations of persistent organic pollutants with coronary heart disease in Hispanic/Latino adults: The Hispanic Community Health Study/Study of Latinos (HCHS/SOL)
495	Environment/Climate Change	Claire Nurse	Student/PostDoc	Prenatal per- and polyfluoroalkyl substance exposure in relation to maternal prenatal and postpartum anxiety and depression
500	Environment/Climate Change	Tona Pitt	Student/PostDoc	Wildfire PM2.5 exposure and emergency department utilization in the first year of life
501	Environment/Climate Change	Megan Hansel	Student/PostDoc	Evaluating objective and subjective measures of neighborhood stress and vulnerability in relation to placental metals concentrations in a U.S. pregnancy cohort.
504	Environment/Climate Change	Amanda E. Ng	Non Student/PostDoc	Neighborhood Characteristics and Sleep Health Among Children: Findings from the National Health Interview Survey 2020, 2022
507	Environment/Climate Change	Yaguang Wei	Non Student/PostDoc	Wildfire smoke PM2.5 and mortality rate in the contiguous United States: a causal modeling study
510	Environment/Climate Change	Wenlu Yuan	Student/PostDoc	A difference-in-differences analysis evaluating the impact of a clean heating policy on inflammatory biomarkers among rural Beijing adults
511	Environment/Climate Change	Marijke Rowse	Student/PostDoc	Oil and Gas Development and Adverse Birth Outcomes: A Conceptual Framework, Literature Review, and Bias Analysis
513	Environment/Climate Change	Anna M. Staddon	Student/PostDoc	Residential Greenness and Cognitive Decline in a Community-Based Cohort
514	Environment/Climate Change	Erin Campbell	Student/PostDoc	Associations between residential proximity to oil and gas development and adverse birth outcomes in a North American preconception cohort
518	Environment/Climate Change	Matthew Bonner	Non Student/PostDoc	The long-term Particulate Matter2.5 Exposure and Prevalent Depression Symptoms in the Environmental Health Study for Western New York (EHS4WNY)
519	Environment/Climate Change	Kaniz Rabeya	Student/PostDoc	Examining the relationship between high ambient temperatures and reproductive hormone levels in healthy premenopausal women: BioCycle study
521	Environment/Climate Change	Kristina Stuckey	Student/PostDoc	Investigating associations among perfluoroalkyl and polyfluoroalkyl substances (PFAS) levels and demographic characteristics within the Extremely Low Gestational Age Newborn Cohort
523	Environment/Climate Change	Edwin van Wijngaarden	Non Student/PostDoc	Association Between Long-Term Methylmercury Exposure from Fish Consumption and Frailty and Cognition in Older Women
534	Environment/Climate Change	Akhgar Ghassabian	Non Student/PostDoc	Prenatal exposure to Organophosphate Ester Flame Retardant and Child Cognition at Age 4-6 years: The Environmental influences on Child Health Outcomes (ECHO) Cohort
536	Environment/Climate Change	Taylor Robinson	Student/PostDoc	Associations of Objective Indoor Temperature and Parent-Reported Thermal Discomfort with Sleep Health Outcomes in an Urban Sample of School-aged Children
552	Genetics	Guoyi Yang	Student/PostDoc	Angiopoietin-like protein 3 inhibition and kidney function: multi-ancestry Mendelian randomization analyses
554	Genetics	Ming Ding	Non Student/PostDoc	A Novel Method for Summary-data-based Multivariable Mendelian Randomization
561	Global Health	L. Paloma Rojas-Saunero	Non Student/PostDoc	Intersectional Inequalities in the Context of Rurality on Cognitive Functioning: A MAIHDA Analysis of the Harmonized Cognitive Assessment Protocol Network in Mexico, India, and Brazil
564	Global Health	Colette Davis	Non Student/PostDoc	Assessing the Impact of Household Characteristics on Cholera Risk in Haiti: Insights from the 2016-2017 Demographic and Health Survey
565	Global Health	Helen Pitchik	Student/PostDoc	Mechanisms of impact of early water, sanitation, hygiene and nutrition interventions on development in middle-childhood: A causal mediation analysis
566	Global Health	Anna Nguyen	Student/PostDoc	Pathways through which water, sanitation, hygiene, and nutrition interventions reduce antibiotic use in young children: a mediation analysis of a cluster-randomized trial
567	Global Health	Maryam Alkhamees	Student/PostDoc	The Impact of Circular Migration on the HIV Care Continuum: A Qualitative Analysis in Northeastern South Africa
569	Global Health	Reem Waziry	Non Student/PostDoc	An innovative and improved study design and matching algorithm for assessment of progression to dementia and early dementia among stroke survivors in population-based cohorts
570	Global Health	Samyra Cox	Non Student/PostDoc	Tuberculosis (TB) Aftermath non-inferiority trial: phone screening compared to home-based screening post TB
583	Global Health	Yun-Jung Eom	Student/PostDoc	Disentangling the associations between women’s decision-making power dynamics and maternal and child health outcomes in 35 sub-Saharan African countries
584	Global Health	Hyejun Chi	Student/PostDoc	Child’s functional difficulties and early childhood development in 22 low- and middle-income countries
585	Global Health	Doris Duran	Student/PostDoc	Ill-defined mortality in Brazil during the COVID-19 pandemic: population study by region and race/ethnicity
615	Health Disparities	Meredith Cahill	Student/PostDoc	Intersectional Multilevel (MAIHDA) Analysis of Preterm Birth Disparities in the United States
616	Health Disparities	Negin Mirzaei Damabi	Student/PostDoc	Beyond Borders: The Intersection of Migration, Culture, and Female Sexual Dysfunction

618	Health Disparities	Cynthia Wynn	Non Student/PostDoc	Allostatic load, racial and economic segregation, and birth outcomes
620	Health Disparities	Melina Albanese	Student/PostDoc	Human papillomavirus vaccination access in adolescents and young adults with and without a disability: A systematic review
622	Health Disparities	Precious Amiewalan, B.S.	Student/PostDoc	Bridging the Benefit Gap: Addressing Health Disparities Through Data-Informed Outreach at Link Health
633	Health Disparities	Ikhan Kim	Non Student/PostDoc	Intersecting urbanity level and educational inequalities in suicide mortality by gender and age group in Korea, 2015-2020: an ecological study
634	Health Disparities	Leah Santacroce	Non Student/PostDoc	Association Between Social Risk Factors and Major Adverse Cardiovascular Events and Mortality Among Individuals with Rheumatic Conditions
636	Health Disparities	Emily Hall	Non Student/PostDoc	Pediatric asthma disparities, school absenteeism, and decreased physical activity among children in Central Texas
638	Health Disparities	Kaelan Findlay	Student/PostDoc	Income Inequality and Physical Health in the United States: The Mediating Role of Public Health Funding
642	Health Disparities	Kaylin M. White	Student/PostDoc	Lifetime Discrimination as a Contributor to Black-White Disparities in Actigraphy-Assessed Sleep Duration in the Multi-Ethnic Study of Atherosclerosis (MESA)
643	Health Disparities	Anna Holdiman	Student/PostDoc	Sexual Victimization and Gender Identity: A National Study of High School Students in the US, 2023
651	Health Disparities	Cynthia N. Ramirez	Student/PostDoc	Availability of sexual orientation and gender identity (SOGI) data in a cohort of transgender and gender diverse people: An analysis of electronic health records
658	Health Disparities	Isabel Curro	Non Student/PostDoc	The association of medical mistrust, clinical trial knowledge, and perceived clinical trial risk with willingness to participate in health research among historically marginalized in
662	Health Disparities	Parvati Singh	Non Student/PostDoc	Involuntary psychiatric commitments following the Krudttønden attacks in Denmark
664	Health Disparities	Ariana Mora	Student/PostDoc	Leveraging Disease Misclassification to Estimate the Impact of Pre-Pregnancy Healthcare Access on Maternal Morbidity
666	Health Disparities	Kristi Allgood	Non Student/PostDoc	Residential Segregation, Housing, and Adverse Birth Outcomes Among Black Birthing People: The Case of South Carolina (1989-2020).
667	Health Disparities	Mia Zhu	Student/PostDoc	Lead exposure as a contributor to the Black-White racial disparity in blood pressure: evidence from NHANES 1988-1994 and 2017-2020
684	Health Services/Policy	Afshin Vafaei	Non Student/PostDoc	Determinants of Homecare Use in Older Adults: a Systematic Review and Meta-analysis of Quantitative Studies
687	Health Services/Policy	Jin Choi	Non Student/PostDoc	Exploring the Impact of Housing Type on Respiratory Health in New York City Adults: The Mediating Role of Indoor Environmental Quality
688	Health Services/Policy	Mina Habib	Student/PostDoc	Policy Effect Heterogeneity of the Medicaid Expansion Program on Cancer Mortality Overall and by U.S. Region, Sex and Race/Ethnicity: A Generalized Synthetic Approach
695	Health Services/Policy	Samantha Howe	Student/PostDoc	Modelling the health, economic, and equity impacts of a tobacco free generation policy in Australia
699	Health Services/Policy	Rosanne Freak-Poli	Student/PostDoc	What is the best measure to evaluate social prescribing programs in Australia?
702	Health Services/Policy	Tristan Watson	Student/PostDoc	Relationship between surgical appropriateness, contextual factors, and pain trajectories following total knee replacement for knee osteoarthritis: A group-based trajectory mo
707	Health Services/Policy	Santiago Esteban	Student/PostDoc	Reducing no-shows in public healthcare: Target trial emulation and cost-benefit analysis of WhatsApp reminder strategies to reduce appointment absenteeism
708	Health Services/Policy	Catherine K. Ettman	Non Student/PostDoc	Telehealth, assets, and completion of mental health services after suicidal behavior: an analysis using electronic health records
709	Health Services/Policy	Antonio DiDomenico	Student/PostDoc	Characteristics of Primary Care Associated with Non-Urgent Visits to the Emergency Department: A Systematic Review
721	HIV / STI	David B Hanna	Non Student/PostDoc	Community-informed machine learning to identify factors associated with unmet social needs and adverse care outcomes among persons with HIV
733	HIV / STI	Domonique Reed	Student/PostDoc	Educational Attainment and HIV Prevalence among Adolescent Girls and Young Women in Malawi: Estimating the Impact of Increased Secondary Education Completion using
734	HIV / STI	Ana P. Ortiz	Non Student/PostDoc	Prevalence and correlates of obesity in HIV-positive and HIV-negative individuals in Puerto Rico: A clinic-based cross-sectional study
735	HIV / STI	Haylie Simmons	Student/PostDoc	Long-acting reversible contraceptives and the risk of sexually transmitted blood-borne infections among Canadians under 25 years of age
738	HIV / STI	Haylie Simmons	Non Student/PostDoc	Assessing the link between long-acting contraception and risk of sexually transmitted blood-borne infections
740	HIV / STI	Grace E. Mulholland	Student/PostDoc	An enhanced PrEP/STI implementation strategy improves HIV oral pre-exposure prophylaxis persistence at an STI clinic in urban Malawi
742	HIV / STI	Emma Kohrt	Student/PostDoc	A case-control study of virologic failure among people living with HIV enrolled in a NYC-based Medicaid special needs plan
764	Infectious Disease	Louis Yat Hin Chan	Student/PostDoc	Understanding spatial clustering of seasonal influenza in the United States during the 2010/2011-2019/2020 seasons
765	Infectious Disease	Eva Odiko	Student/PostDoc	Environmental Lead Exposure and Clinical Infectious Respiratory Disease in an Underrepresented, Urban Sample of Children
776	Infectious Disease	Savannah M. Hammerton	Student/PostDoc	Assessing correlates of protection against norovirus infection and disease
784	Infectious Disease	Grissel Lopes	Student/PostDoc	SickMix: How Do People Change Social Contact Patterns When They Are Sick?
796	Injuries/Violence	Mofan Gu	Non Student/PostDoc	Evaluating the Effectiveness of a Hospital-Based Violence Intervention Program in Reducing Depression and PTSD Symptoms Among Gunshot Injury Survivors in Arkansas
800	Injuries/Violence	Xiyuan Hu	Student/PostDoc	Timing of First Sexual Violence Victimization in Young Adults: Variations by Sexual and Gender Characteristics
801	Injuries/Violence	Jing Wang	Non Student/PostDoc	State-level changes in suicide rates by mechanism, United States, 2019-2023
803	Injuries/Violence	Alexander Ivan B. Posis	Student/PostDoc	Location-specific musculoskeletal injury risk following mild traumatic brain injury among United States service members
807	Injuries/Violence	Stanford Chihuri	Student/PostDoc	Polysubstance Use and Involvement of Fatal Motor Carrier Crashes
809	Injuries/Violence	Sabrina C. Boyce	Non Student/PostDoc	Prevalence and Risk for Sexual and Dating Violence among LGBTQ+ Youth in California
812	Injuries/Violence	Alison Walsh	Non Student/PostDoc	Application of IPV instrument in accurately identifying and abusive and unsafe relationships
824	Mental Health	Sheng-Hung Chu	Student/PostDoc	The Effects of Problematic Smartphone Use on Adolescent Sleep and Mental Health: An Evaluation of Structural Associations
833	Mental Health	Valerie Lucas	Student/PostDoc	Investigating predictive value and effect estimates between two commonly used depression scales in via secondary data from HPTN 068, a conditional cash transfer trial of ad
835	Mental Health	Mathilde Lavigne-Robichaud	Non Student/PostDoc	Population fraction of physician-diagnosed depression attributable to psychosocial stressors at work: Results of the PROspective Quebec Study on Work and Health
839	Mental Health	Andrew Williams	Non Student/PostDoc	Racial and Rurality Disparities in Screening for Postpartum Depression in North Dakota (2017-2021)
841	Mental Health	Marco Thimm-Kaiser	Student/PostDoc	US state regulation of adolescent social media use: Do policies match the evidence?
847	Mental Health	Jane Yan	Non Student/PostDoc	Modifiable Lifestyle Factors for Perinatal Depression among Women with a History of Premenstrual Disorder: A Nationwide Register-Based Study in Sweden
848	Mental Health	Sabrina Karim	Student/PostDoc	The association between antenatal depression with postpartum visit non-attendance: the mediating role of postpartum depressive symptoms
849	Mental Health	Andrew MacGregor	Non Student/PostDoc	Cognitive complaints predict persistent probable depression in U.S. military personnel
852	Mental Health	Yong Yang	Non Student/PostDoc	The Role of Neighborhood Perceived Crime and Social Cohesion in Mental Health: A 5-Year Longitudinal Study
856	Mental Health	Kelsey Serier	Non Student/PostDoc	Posttraumatic stress disorder symptom remission and risk of incident type 2 diabetes
859	Mental Health	Michaela F George	Non Student/PostDoc	Recreational opportunities at Play Marin enhance health and well-being for adolescents in Marin City, CA
860	Mental Health	Yoshikazu Komura	Student/PostDoc	Area-level deprivation and suicide by restrictable methods: trends in Japan, 2000-2022
862	Mental Health	Azuna Sawada	Student/PostDoc	Neighborhood social capital and suicidality during the COVID-19 pandemic in the All of Us Research Program
869	Mental Health	Yu-Tien Hsu	Student/PostDoc	The Protective Power of Social Connectedness: Individual vs. Community Influences on Psychological Distress in Middle-Aged Black Adults
870	Mental Health	S. Cristina Oancea	Non Student/PostDoc	Impact of soft drink and sweetened food consumption on mental health among Brazilian adolescents
871	Mental Health	Lorenza Dall'Aglío	Student/PostDoc	Heterogeneity of treatment effects for hypothetical lifestyle interventions on depression risk in youth
878	Mental Health	Ji Su	Student/PostDoc	Causal relationship between schizophrenia and breast cancer: A two-sample Mendelian randomization study and polygenic risk score
880	Mental Health	Melanie A. de Lange	Student/PostDoc	The Effects of Daylight Saving Time Clock Changes on Mental and Physical Health Outcomes in Primary and Secondary Care in England
884	Mental Health	Sonali Amarasekera	Student/PostDoc	The associations between major depressive disorder and the risks of mortality and hospitalization
887	Mental Health	Dana Tarif	Student/PostDoc	Pubertal Timing and Depression: The Mediating Effects of Physical Activity and Body Dissatisfaction
905	Methods/Statistics	Elizabeth Rogawski McQuade	Non Student/PostDoc	A novel estimand for quantifying vaccine efficacy against asymptomatic infections
912	Methods/Statistics	Igor Burstyn	Non Student/PostDoc	Improving Design of Epidemiology Studies that Use Biomonitoring for Exposure Assessment: A SciPinion Delphi Panel Recommendation

917	Methods/Statistics	Niyati Sudhalkar	Non Student/PostDoc	Building an infrastructure to study longer-term, geospatial food access through residential history linkages
921	Methods/Statistics	Zhu Liduzi Jiesisibieke	Student/PostDoc	Body Mass Index as a Negative Confounder? Evidence and solutions
924	Methods/Statistics	Alexander Keil	Non Student/PostDoc	Old tools to address persistent problems: assessing health disparities and differences with attributable fractions
925	Methods/Statistics	Chandni Shahdev	Student/PostDoc	Understanding Depression as a Mediator Between HIV Stigma and Medication Adherence in Black Women with HIV
927	Methods/Statistics	Tiago Almeida de Oliveira	Student/PostDoc	Analysis of Kidney Cancer Patients Using the SICHEL Regression Model within GAMLSS FrameworkAIM
943	Methods/Statistics	Montana Kekaimalu Hunter	Student/PostDoc	The dwindling yet lingering myths about use of p-values and confidence intervals in modern epidemiology
