

Poster Session 2, Wednesday, June 11th
6:30-7:30pm

Poster Number	Primary Category	Presenting Author	Author Status	Title
2	Aging	Emily Harville	Non Student/PostDoc	Reproductive history and brain imaging: The CARDIA study
4	Aging	Anni Wang	Student/PostDoc	Impact of Driving Mileage on Depression Prevalence Among Older Adults During the COVID-19 Pandemic: A Longitudinal Poisson Regression Analysis
6	Aging	Derek Manis	Non Student/PostDoc	Retirement from the Labor Force Among Unpaid Caregivers: A Matched Case-Control Study
7	Aging	Choa Yun	Non Student/PostDoc	Biological Aging and Autoimmune Disease Incidence: A Large Prospective Cohort Study
10	Aging	Yoko Hamasaki	Student/PostDoc	The effect of regular physician home visits on the prevention of hospitalization among older adults starting long-term care in Japan
17	Aging	Meredith L. Phillips	Student/PostDoc	Parental age at the birth of the last child and mid- to later-life memory decline in rural South Africa
18	Aging	Rafaela Gonçalves Ribeiro Lucas	Student/PostDoc	Double Risk: How Diabetes and Hypertension Impact Disability in Non- Institutionalized Brazilian Older Adults – Evidence from Two Population-Based Studies
21	Aging	Youngjoon Bae	Student/PostDoc	Widowhood, Immunosenescence, and Mortality in Older American: Evidence from the Health and Retirement Study
22	Aging	Martine Elbejjani	Non Student/PostDoc	Adverse Socioeconomic Changes and Mental Health in Older Age: Results from the Lebanon Study on Ageing and Health
27	Aging	Hind A. Beydoun	Non Student/PostDoc	Comparing major comorbidity indices as predictors of all-cause mortality in the Veterans Affairs healthcare system
28	Aging	Hind A. Beydoun	Non Student/PostDoc	Cardiovascular disease, bone fracture, and all-cause mortality risks among postmenopausal women by arthritis and veteran status: A multistate Markov transition analysis
30	Aging	Xuexin Yu	Student/PostDoc	Cumulative Supplemental Nutrition Assistance Program Participation and Memory Aging among US Older Adults, 1996-2018
31	Aging	May A. Beydoun	Non Student/PostDoc	The interplay of air pollution with plasma neurodegenerative markers and metabolome for dementia, Parkinson’s Disease and all-cause mortality risks and transitions: the UK Biobank study
32	Aging	Reem Waziry	Student/PostDoc	The Role of DNA methylation-based Biological Aging, Immunity and Inflammation Biomarkers in the Relationship between Stroke, Short- and Long-term Cognition.
34	Aging	Emily A. Nyhan	Student/PostDoc	Associations Between Birthweight and Preterm Birth and the Risk of Alzheimer’s in Women from the Women’s Health Initiative
36	Aging	Bryan James	Student/PostDoc	Healthcare Costs and Utilization Patterns Before and After Dementia Onset With and Without Clinical Recognition by the Healthcare System
37	Aging	Bailey Reutinger	Student/PostDoc	The association between frailty and incident dementia among older adults in the National Health and Aging Trends Study (NHATS)
41	Aging	Yodit Goshu	Student/PostDoc	Associations of Everyday and Lifetime Discrimination with Hippocampal and White Matter Hyperintensity Volumes among Older Black Adults
43	Aging	Ruijia Chen	Student/PostDoc	Quantifying the Population Attributable Fraction of Dementia from Insomnia among Older Adults in the United States
51	Aging	Kelley Akiya	Student/PostDoc	Do We Need Better National Data on Food Insecurity in Older Adults? A Validation Study of the Health and Retirement Study’s 2-Item Food Security Screener
56	Aging	Clara Bolster-Foucault	Student/PostDoc	Socioeconomic and Gender-Based Disparities in Admissions to Long-Term Care Facilities in Quebec, Canada
61	Aging	Eleanor Hayes-Larson	Non Student/PostDoc	Estimating the effect of childhood adversity on mid- and late-life memory decline in a nationally representative sample
80	Behavior	Kliver Antonio Marin	Student/PostDoc	Exploring the mediating effect of life satisfaction on psychological distress and eating behavior association in students from economically disadvantaged regions.
82	Behavior	Tahmina Begum	Student/PostDoc	Association between cadence (steps/min) and intensity during treadmill activity among 18–20 year olds: the SKyRoCKeT study
83	Behavior	Marcus Vinícius Nascimento-Ferreira	Student/PostDoc	Replacing Sedentary Behavior with Physical Activity: A 15-Minute Strategy to Alleviate Psychological Distress in College Students from Economically Disadvantaged Regions
85	Behavior	Jing Yu	Non Student/PostDoc	Emotional, Cognitive, and Behavioral Self-Regulation in Early Childhood and Premature All-Cause Mortality Decades Later
88	Behavior	Sara Raposo	Non Student/PostDoc	Changes in parental feeding practices and association with children’s dietary habits in the implementation study of the Healthy School Start program in 5-7-year-old Swedish children
106	Big Data/Machine Learning/AI	Jag Lally	Student/PostDoc	Geospatial clustering of physician age in the US physician workforce
107	Big Data/Machine Learning/AI	Júlia Neuenschwander	Student/PostDoc	Error Patterns in Machine Learning Algorithms for Healthcare: a Multicohort Study Across Brazil's Five Regions
113	Big Data/Machine Learning/AI	Natalia Katenka	Non Student/PostDoc	Assessing Community Alerts for Increased HIV Risk on HIV Risk Behavior in a Network of People who Inject Drugs: An Application of Network Targeted Maximum Likelihood Estimation
115	Big Data/Machine Learning/AI	Muhammad Zia ul Haq	Student/PostDoc	Development and Real-World Evaluation of a ClinicianTrained Model for Managing Patient Portal Messages
116	Big Data/Machine Learning/AI	Hayden L. Smith	Non Student/PostDoc	Application of data imputation using a generative adversarial network
118	Big Data/Machine Learning/AI	Yichao Liu	Student/PostDoc	A Comparison of Deep Neural Network Compression for Citizen-Driven Tick Surveillance
121	Big Data/Machine Learning/AI	Audêncio Victor	Student/PostDoc	Predictive Modeling of Gestational Weight Gain: A Machine Learning Multiclass Classification Study
125	Big Data/Machine Learning/AI	Fabiano Barcellos Filho	Student/PostDoc	Improving Fairness in Predictive Models: A Multicalibration Analysis Across Brazilian Hospitals
127	Big Data/Machine Learning/AI	Melanie Sterian	Non Student/PostDoc	Leveraging artificial intelligence to gather epidemiologic data on infectious diseases: the Global Repository of Epidemiological Parameters (GREP) project
134	Big Data/Machine Learning/AI	Adrien Saucier	Non Student/PostDoc	The contribution of global climatic patterns to forecasting dengue cases in Colombia
140	Cancer	Emma Hymel	Student/PostDoc	Association Between Travel Distance to Treatment Facilities and Survival Among Children with Cancer in Louisiana
141	Cancer	Maher Alsaadi	Student/PostDoc	UGT2B10 haplotypes within the substrate binding and enzyme activity functional pockets are associated with lung cancer
145	Cancer	Jade Mason	Student/PostDoc	Evaluating clinical factors implicated in racial differences in survival among patients with multiple myeloma
148	Cancer	Eunhye Park	Non Student/PostDoc	Impact of Regional Factors on Breast Cancer Stage at diagnosis: Exploring Age-Specific Differences Around Korea’s National Cancer Screening Policy
149	Cancer	Lindsay J Collin	Non Student/PostDoc	Measuring completeness of reporting of US cancer registries
166	Cancer	Yung-Fang Deng	Student/PostDoc	Implications of neighborhood socioeconomic status on work ability among cancer survivors in the UNC Cancer Survivorship Cohort
167	Cancer	Farah Ben Souilah	Student/PostDoc	Associations between a posteriori dietary patterns and prostate cancer risk: results from the BIOCaPPE prospective cohort study
171	Cancer	Maya Deshmukh	Non Student/PostDoc	Personal Talc Use and Incident Lung Cancer
173	Cancer	Yangbo Sun	Non Student/PostDoc	Sodium-glucose cotransporter 2 inhibitors and prostate cancer among type 2 diabetes patients: observational evidence from All of US
177	Cancer	Ella Sukup	Student/PostDoc	Young Women are at Increasing Risk for Cancers, Including Colorectal Cancer (CRC)
181	Cancer	Mahdi Nalini	Non Student/PostDoc	Tobacco-related urinary biomarkers and lung cancer risk in women, a case-cohort analysis
186	Cancer	Shuji Ogino	Non Student/PostDoc	The early-onset cancer epidemics: novel role of mixed methods research using the prospective cohort incident-tumor biobank method
187	Cancer	Dejka M. Araujo	Student/PostDoc	Epidemiological trends of synovial sarcoma by primary tumor sites in the US from 2000 to 2020
189	Cancer	Judy Ou	Non Student/PostDoc	Air pollution is associated with cardiovascular and respiratory healthcare encounters among testicular cancer survivors
190	Cancer	Vanessa Siebert	Non Student/PostDoc	Changes in frailty among older adults with chronic lymphocytic leukemia/small lymphocytic lymphoma
191	Cancer	Andrea Romanos-Nanclares	Student/PostDoc	Inflammatory and insulinemic dietary patterns during adolescence and risk of invasive breast cancer among US women
196	Cancer	Cody Ramin	Non Student/PostDoc	Cardiovascular disease mortality among women diagnosed with metastatic breast cancer in the United States, 2000-2020
198	Cancer	Manali Desai	Student/PostDoc	Association of Smoking and Bladder Cancer among adults in the United States
204	Cancer	Sarala Pandey	Student/PostDoc	The impact of the number of chronic health conditions on cancer screening: results from a 2016-2022 U.S. national study
206	Cancer	Yuri Ito	Non Student/PostDoc	Impact of COVID-19 on area-based socioeconomic inequalities in cancer mortality in Japan: 2017-19 and 2020-22
207	Cancer	chungho kim	Student/PostDoc	Investigating the Effect of Alcohol Consumption Intensity on Gastric Cancer Risk Using Targeted Maximum Likelihood Estimation
208	Cancer	Nuo Xu	Non Student/PostDoc	Depressive symptoms in relation to breast cancer mortality: findings from the Black Women’s Health Study
214	Cancer	Frances Albers	Student/PostDoc	Physical activity and risk of liver cancer in the NIH-AARP Diet and Health Study
216	Cancer	Tanvi Srivastava	Student/PostDoc	Racial Disparities and the Impact of Physical Activity on Mortality in the Pathways Study, A Prospective Cohort Study of Breast Cancer Survivors
231	Cardiovascular	Alina	Student/PostDoc	Advancing Applicability and Effectiveness of Cardiovascular Disease Prevention Education Programs Through Culture-Specific Designs
235	Cardiovascular	Sandra Jackson	Non Student/PostDoc	Healthcare quality, therapeutic inertia, and blood pressure control among patients with hypertension
250	Cardiovascular	Madeline Cannon	Student/PostDoc	Cardiovascular Disease and Post-traumatic Stress Disorder in World Trade Center Exposed Firefighters
251	Cardiovascular	Jyun-Hao Guan	Student/PostDoc	The Impact of Life’s Essential 8 on Metabolic Syndrome Development in Adolescents: A Longitudinal Study
254	Cardiovascular	Bernd Kowall	Non Student/PostDoc	Differences in cardiovascular disease, mortality in high income countries are too large to be explained by health system quality alone - using the normalized mortality index can help to clarify
257	Cardiovascular	Mohammad Moniruzzaman	Student/PostDoc	Neighborhood Physical Disorder and Stroke: Findings from the Health and Retirement Study
258	Cardiovascular	Joan Shim	Student/PostDoc	Cardiac Rehabilitation Participation Association with Blood Pressure Trajectories in UCSF Health Patients
265	Cardiovascular	Bracha Erlich	Student/PostDoc	6 years of ARNI use in Israel - effectiveness analysis in real world data

267	Cardiovascular	Tong Xia	Student/PostDoc	Associations of plasma proteomic signatures of cardiovascular-kidney-metabolic syndrome with incident cardiovascular disease
282	Causal Inference	Heavenlight A Paulo	Student/PostDoc	G-computation for the Optimal Timing of the Second Dose Administration of mRNA COVID-19 Vaccines in Georgia in 2020-2022
289	Causal Inference	Sean McGrath	Student/PostDoc	Comparative effects of generalized time-varying treatment strategies with repeatedly measured outcomes in EHR data
295	Causal Inference	Yu-Ching Chou	Student/PostDoc	Analysis of the long-term incidence trend of hypothyroidism with Oral Lichen Planus in Taiwan
305	Causal Inference	Rushani Wijesuriya	Non Student/PostDoc	Simultaneous assessment of multiple biases in causal inference
309	Causal Inference	Guilin Li	Student/PostDoc	Herpes Zoster Vaccine for the Prevention of Dementia: A Target Trial Emulation Using Electronic Health Records
312	Causal Inference	Sherrine Eid	Student/PostDoc	Standardized Tools for Constructing DAGs: Advancing Causal Inference and Risk Assessment in Pharmaceutical Studies
325	COVID-19 Pandemic	Jana L. Hirschtick	Non Student/PostDoc	Comparison of survey questions to define Long COVID: implications for prevalence and disparities
327	COVID-19 Pandemic	Megan M. Chenoweth	Non Student/PostDoc	Heterogeneity and Duplication in Common Data Elements for the Study of COVID-19
335	COVID-19 Pandemic	Charles Olomofe	Non Student/PostDoc	Assessing the Correlates and Implications for Policy of COVID-19 Vaccine Uptake and Hesitancy Among People Living With HIV/AIDS in Northeast Tennessee
338	COVID-19 Pandemic	Anne Huiberts	Student/PostDoc	Effectiveness of Omicron JN.1 vaccination against SARS-CoV-2 infection in a prospective cohort study in the Netherlands, September 2024 to February 2025
345	COVID-19 Pandemic	Xiaozhong Wen	Non Student/PostDoc	COVID-19 and maternal substance use during pregnancy
351	COVID-19 Pandemic	Anushka Reddy Marri	Non Student/PostDoc	Exploring the Nutritional Impact of India's First COVID-19 Lockdown: Was it equitable?
372	Diabetes	Mathilde Lavigne-Robichaud	Non Student/PostDoc	Psychosocial Stressors at Work and Type 2 Diabetes Risk in Women and men: 18-Year Prospective Cohort Study of Combined Exposures
374	Diabetes	Yixun Ke	Student/PostDoc	Association of Hyperinsulinemia and Insulin Resistance with All-cause, Cardiovascular, and Cancer Mortality Among Non-diabetic Americans: The US National Health and Nutrition Examination Survey
384	Diabetes	Divine-Favour Chichenim Ofili	Student/PostDoc	Diabetes Identification in Self-Reported Population-Based Survey Data Versus Health Administrative Data
410	Disaster Epidemiology	Ashley Geczik	Non Student/PostDoc	World Trade Center (WTC) dust exposure and risk of breast cancer among female WTC survivors
450	Environment/Climate Change	Andrea Portt	Student/PostDoc	Air pollution and migraine: Same-day and lagged associations of smartphone app attack records following environmental exposures
452	Environment/Climate Change	Nina Franzen Lee	Student/PostDoc	Spatial Patterns and Predictors of Illegal Dumping in Mississippi
461	Environment/Climate Change	Veronica A. Wang	Student/PostDoc	Temperature and emergency police calls in Phoenix, Arizona
463	Environment/Climate Change	Juwel Rana	Student/PostDoc	Estimate Joint Effects of Time-varying Air Pollutant Mixtures on Mortality in Canada Using a Novel Methodologic Approach
464	Environment/Climate Change	Jennifer Ko	Student/PostDoc	Evaluating the Association Between Ambient Temperature and Small for Gestational Age Outcomes in Pennsylvania Births in 2010 and 2011
473	Environment/Climate Change	Hayon Michelle Choi	Student/PostDoc	Prenatal exposure to Particulate Matter (PM2.5) and preterm birth among Medicaid recipients: a national cohort study
477	Environment/Climate Change	Justin Farmer	Student/PostDoc	Early Life Neighborhood Built Environment and Late Life Cognition
479	Environment/Climate Change	Akihiko Narisada	Non Student/PostDoc	The Association between Temperature and Cardiovascular Death by Housing Type in a Japanese Large City
482	Environment/Climate Change	Joanna MN Guimaráes	Student/PostDoc	Is the impact of greenness on insulin resistance mediated by air pollution? A causal mediation analysis in the ELSA Brasil cohort study
483	Environment/Climate Change	Arbor Quist	Non Student/PostDoc	The association between hydrogen sulfide exposure and blood pressure in Carson, CA
486	Environment/Climate Change	Peter S. Larson	Student/PostDoc	Short term fine particulate matter (PM2.5) exposure and "deaths of despair" in Michigan: 2006-2016: a case crossover study
487	Environment/Climate Change	Estela Blanco	Student/PostDoc	Heatwaves and Health System Burden in Santiago: Disparities in Exposure Across Urban Zones (1992 - 2019).
491	Environment/Climate Change	Gary Joseph	Student/PostDoc	Air pollution and postpartum psychological dysfunction symptoms: the interplay with prenatal stress.
492	Environment/Climate Change	Astrid Berena Herrera Lopez	Student/PostDoc	Association of ambient temperature with chronic disease care, in Regions of Antioquia 2015-2021.
497	Environment/Climate Change	Shuxin Dong	Student/PostDoc	The role of particulate radioactivity on the impacts of PM2.5 and its long-term effects on hospitalizations related to neurodegenerative disorders with causal mediation analysis: a national cohort study
498	Environment/Climate Change	Simon Camponuri	Student/PostDoc	Forecasting the impact of hydroclimatic swings on coccidioidomycosis incidence in California
502	Environment/Climate Change	Dhitinut Ratnapradipa	Non Student/PostDoc	Ecological study Examining Correlations Between County-Level Days Flooded and Incidence of Flood-Related Diagnoses
505	Environment/Climate Change	Yaguang Wei	Non Student/PostDoc	Medium-term exposure to wildfire smoke PM2.5 and cardiorespiratory hospitalization risks
506	Environment/Climate Change	Fengxiu Ouyang	Non Student/PostDoc	Maternal Early-pregnancy and Newborn Prenatal Exposure to Hg, Mn, Se and Zn and Child Neurodevelopment Development in the First 24 Months: A Prospective Cohort Study
515	Environment/Climate Change	Satbyul Estella Kim	Non Student/PostDoc	The Influence of Temperature in Age-Specific Mortality Associated with Ozone Exposure
520	Environment/Climate Change	Margaret Quaid	Student/PostDoc	Impact of arsenic exposure on glucose metabolism phenotypes among children in rural Bangladesh
527	Environment/Climate Change	Zoe Maxwell	Student/PostDoc	Investigating the Connection Between Green Spaces, Physical Activity, and Mental Health
529	Environment/Climate Change	Jeehyun Kim	Non Student/PostDoc	Carbapenem-resistant Enterobacteriaceae infections associated with minimum temperature in South Korea from 2018 to 2021
533	Environment/Climate Change	Athira Satheesh Kumar	Student/PostDoc	From Opinion Polarization to Climate Action: A Socio-Climate Framework for Continuous Opinions
560	Global Health	Chaoyang Li	Non Student/PostDoc	Changes in Maternal Mortality Ratios According to Global Health System Levels
571	Global Health	Gloire Onya Mbaka	Student/PostDoc	Serological evaluation of the impact of mass drug administration on malaria transmission: results from a cluster randomized trial in Senegal
572	Global Health	Katherine Key	Non Student/PostDoc	Evaluating interventions designed to expand access to medication abortion: a multi-country pre-post assessment
573	Global Health	Zahra Ali Padhani	Student/PostDoc	Burdens and risk factors for mortality in young people aged 10-24 years in Australia and comparison with OECD countries between 2000-2021: GBD 2021 Study
574	Global Health	Lucy Barrass	Student/PostDoc	Intergenerational social mobility and mental health: evidence from a Filipino birth cohort
580	Global Health	Yu-Lan Tsou	Student/PostDoc	Trends in the 14-Year Incidence of Fibromyalgia with Obstructive Sleep Apnea: A Nationwide Descriptive Study in Taiwan
587	Global Health	Sawsan Abdulrahim	Non Student/PostDoc	Structural racism and diminished health returns on education among Palestinian refugees in Lebanon
588	Global Health	Asmith Joseph	Student/PostDoc	Persistent Health Challenges Among Post-TB and Post-Pregnancy Survivors with HIV in Uganda: A Case Series
590	Global Health	Ann C. Miller	Non Student/PostDoc	Reduction of Child Mortality Rates following 10 years of a health system strengthening program in rural Madagascar: results from the Ifanadiana Health Outcomes and Prosperity longitudinal study
603	Health Disparities	Jialin Mao	Non Student/PostDoc	Geographic Disparities in the Availability of Physicians Caring for Peripheral Arterial Disease and Amputation Rates among Medicare Beneficiaries
607	Health Disparities	Soomin Kim	Non Student/PostDoc	Socioeconomic Disparities in Temperature-related Illness Incidence: Evidence from Korea, 2014–2023
614	Health Disparities	Zoe Walts	Student/PostDoc	Prioritizing clinical utility in the association between allostatic load and the consequences of stress
617	Health Disparities	Kesia Muthuthotatil	Student/PostDoc	Fragile Ties: How Social Fragmentation and Maternal Mental Health Shape Childhood Aggression
619	Health Disparities	David Adzrago	Student/PostDoc	Trends in adult anxiety/depression by disability status, race/ethnicity, sex, and nativity in the US, 2019—2023
621	Health Disparities	Kendalem Atalell	Student/PostDoc	Developmental vulnerability in children from culturally and linguistically diverse backgrounds in Western Australia: a population-based study
624	Health Disparities	Jennifer S. Wang	Student/PostDoc	Racial and Ethnic Disparities in Financial Toxicity among Adults with Early-Onset Cancer in the United States
625	Health Disparities	Catherine Ettman	Non Student/PostDoc	Suicidal ideation, assets, and race in U.S. adults from 2023 to 2024
626	Health Disparities	Annika Gompers	Student/PostDoc	Geographic variation in intersectional racial and gender disparities in access to the kidney transplant waitlist in the US
635	Health Disparities	Chen Sheng	Student/PostDoc	Association between neighborhood segregation and fecundability in a cohort of Black women
645	Health Disparities	Josiane Kabayundo	Student/PostDoc	Transportation barriers to health care access: a scoping review of measurement approaches and associated health outcomes
646	Health Disparities	Veronica A. Wang	Student/PostDoc	Asian and Hispanic enclaves and hospitalizations with Parkinson’s Disease in California Medicare beneficiaries
647	Health Disparities	Celeste Romano	Student/PostDoc	Shared patient-provider demographics and risk for postpartum opioid dispensation among US military service members, 2017–2023
650	Health Disparities	Shilpa Patil	Student/PostDoc	Mindfulness and Healthcare Spending Among Non-Hispanic Black Older Adults: A Stratified Analysis of the Health and Retirement Study
652	Health Disparities	Olivia Affuso	Non Student/PostDoc	Chronic Inflammation Management and Cardiovascular Disease Risk among Black Americans
653	Health Disparities	Ji Yoon Kim	Student/PostDoc	Uptake of the influenza and pneumococcal vaccines among immigrant and non-immigrant older adults in Canada: a cross-sectional analysis of data from the Canadian Longitudinal Study on Aging
656	Health Disparities	Jong Cheol Shin	Non Student/PostDoc	Quantile Regression Analysis of Socioeconomic and Demographic Determinants of Neighborhood Physical Activity in U.S. 500 Cities
659	Health Disparities	Sarah Bassiouni	Student/PostDoc	Minority tax in academic epidemiology: its status and recommendations
680	Health Services/Policy	Tom Lindman	Student/PostDoc	The Association Between Free School Meals and Child Mental Health Diagnoses: Evidence from Medical Records
682	Health Services/Policy	Ana Beatriz Nunes	Student/PostDoc	Fostering Standardised Reporting for Safer Surgery: A European Consensus on Core Measures Set for Perioperative Patient Safety (SAFEST Project)
693	Health Services/Policy	Derek Manis	Non Student/PostDoc	Follow-up visits with a physician after discharge from hospital: a retrospective cohort study
698	Health Services/Policy	Kaya Van Roost	Student/PostDoc	Is TRAP law enforcement associated with an excess change in abortion providers?

703	Health Services/Policy	Sarah Windle	Student/PostDoc	Impact of Global Cannabis Policy Changes on Cannabis and Other Substance Use: A Systematic Review
710	Health Services/Policy	Abigail Eaton	Non Student/PostDoc	Utilization among New Young Healthplan Members Relative to Primary Care Provider Designation
723	HIV / STI	Roxana Rezaei	Student/PostDoc	Examining the Intersection of Quality of Life, Viral Suppression, and Race/Ethnicity Among Women with HIV in the Women's Interagency HIV Study (WIHS)
724	HIV / STI	Yue Zhang	Student/PostDoc	The Impact of COVID-19 Restriction Policies on Viral Load Suppression for People with HIV: Insights from the NA-ACCORD
726	HIV / STI	Alexandra Skinner	Non Student/PostDoc	The effects of minor consent laws for STI/HIV prevention on STI/HIV testing among adolescents in the United States
727	HIV / STI	Brianne Olivieri-Mui	Non Student/PostDoc	Changes in ART Adherence From the Community to the Nursing Home for Adults with HIV
730	HIV / STI	Farhan Khandakar	Student/PostDoc	The Impact of the COVID-19 Pandemic on Reported Chlamydia and Gonorrhea Cases Among Youth and Young Adults in Canada
732	HIV / STI	Carolyn A Fahey	Student/PostDoc	Housing Instability and Frailty Incidence among People with HIV Engaged in Clinical Care in the United States
739	HIV / STI	Chelsie Cintron	Student/PostDoc	HIV exposure and cardiometabolic health outcomes among South African children in a birth cohort study: a mixed effects modeling assessment of blood pressure over time
747	HIV / STI	Precious Patrick Edet	Student/PostDoc	Prevalence of Condomless Sex among Sexually Active Adolescents in the United States: Findings from the 2023 Youth Risk Behavior Survey
748	HIV / STI	Amy Zheng	Student/PostDoc	Acceptability of the common elements treatment approach among women living with in south africa
760	Infectious Disease	John D. Bullock, MD, MPH, MSc	Non Student/PostDoc	The Wright Brothers and Their Genetic Predisposition to Typhoid Fever
766	Infectious Disease	Annika Gunderson	Student/PostDoc	Household Clustering of Malaria, Pneumonia, and Diarrhea Cases: Exploring Co-occurrence Patterns
772	Infectious Disease	Ian Marchinton	Student/PostDoc	West Nile virus cycle threshold values as supplementary data for human risk estimation: an exploratory investigation
774	Infectious Disease	Fatma Tufa	Non Student/PostDoc	Cross-sectional surveys to understand decision-making related to residential vector control across New England
782	Infectious Disease	Lin Ammar	Student/PostDoc	Effectiveness of palivizumab on reducing RSV lower respiratory tract infection in children with Down syndrome
790	Injuries/Violence	Kate Vinita Fitch	Student/PostDoc	Impact of state minimum hourly wage increases on homicide mortality rates in the United States from 2010 to 2020
791	Injuries/Violence	Maryam Tanveer	Student/PostDoc	COVID-19 Onset, Stay-At-Home Orders, and Racialized Inequities in Homicide Mortality Across the US
794	Injuries/Violence	Liza Lutzker	Student/PostDoc	Trends and disparities in pedestrian injuries and fatalities in hit-and-run crashes
798	Injuries/Violence	Aidin Gharavi	Student/PostDoc	A National Multi-Center Analysis of the Epidemiology of Pediatric Facial Injuries from Fireworks
806	Injuries/Violence	Amiya Bhatia	Student/PostDoc	Does school violence impact violence victimisation later in life? Evidence from a cohort study in Luwero, Uganda
825	Mental Health	Debbie Huang	Non Student/PostDoc	Depression screening using the Patient Health Questionnaire (PHQ)-9: discrepancies between the sum score and diagnostic algorithm approach and the role of physical functioning
826	Mental Health	Jane Maddock	Non Student/PostDoc	A target trial emulation of retirement and self-rated health and life satisfaction in the UK
827	Mental Health	Shiyu Li	Student/PostDoc	Mental illness after bereavement before and during the COVID-19 pandemic in Sweden: a matched cohort study
836	Mental Health	Sarah McKetta	Student/PostDoc	The role of alcohol in sexual orientation-related disparities in youth suicidal thoughts and behavior
838	Mental Health	Audêncio Victor	Student/PostDoc	Risk factors for mental disorders in pregnant women: A comparison between the Jundiaí and Araraquara cohorts in Brazil
840	Mental Health	Maryam Elhabashy	Student/PostDoc	Prevalence and risk factors of anxiety/depression by county classification among US adults
843	Mental Health	Catherine Gimbrone	Student/PostDoc	Using large biobanks for psychiatric genomic research: investigating selection and generalizability through sample composition
850	Mental Health	Xinye Qiu	Student/PostDoc	Serum Metabolites Associated with Depression and Anxiety in Hispanic Community Health Study/Study of Latinos
851	Mental Health	Chin-Kuo Chang	Non Student/PostDoc	Association between Gestational Diabetes Mellitus and Child Mental Disorders: Population-based Target Trial Emulation in Taiwan
853	Mental Health	Damilola Sherifat	Student/PostDoc	Unpacking the Impact of Social Determinants of Health on Adolescent Mental Health: Pathways to Equity and Intervention
854	Mental Health	Yuta Taniguchi	Non Student/PostDoc	Newborns' congenital malformations and parents' depression diagnosis: a matched cohort study in Japan
855	Mental Health	Jeong Hyun Ahn	Student/PostDoc	Longitudinal Analysis of the Impact of Cardiovascular Health on Subsequent Depressive Symptoms, Anxiety, and Post-Traumatic Stress Disorder
866	Mental Health	Virginia Cafferky	Non Student/PostDoc	Perceived racism and depression in a cohort of middle-aged US Black women: the role of potential modifiers
872	Mental Health	Navdep Kaur	Student/PostDoc	Barriers to outpatient mental health services experienced by adult Medicaid recipients: A scoping review
873	Mental Health	Ji Su Yang	Student/PostDoc	Maternal Depression and Offspring Inflammation: Association with hsCRP Levels across Age and Sex
874	Mental Health	Yingzhe Zhang	Student/PostDoc	The association of objectively and subjectively measured modifiable lifestyle factors with internalizing problems: The role of genetic confounding and shared method variance bias
876	Mental Health	Daniel Hagen	Non Student/PostDoc	Unmet Need for Depression Treatment Before and After the Affordable Care Act
877	Mental Health	Caitlin Meyer	Student/PostDoc	Change in hospitalization rates for mental health and substance use disorders from before to after the start of the COVID-19 pandemic among Illinois youth, overall and by sex
879	Mental Health	Yujin Kim	Student/PostDoc	Smartphone use, sleep dissatisfaction, and mental health in Korean adolescents
881	Mental Health	Hayami Koga	Student/PostDoc	Optimism and Preventive Healthcare Use
882	Mental Health	Deepika Dinesh	Student/PostDoc	Gut microbiome variations associated with depressive symptomatology in a cohort of Boston-area Puerto Rican older adults
888	Mental Health	Jing Zhou	Student/PostDoc	Effect of antidepressant treatment on suicidal behavior among women with postpartum depression: a target trial emulation
889	Mental Health	Deborah Taye	Non Student/PostDoc	Associations Between Economic Hardships and Mental Health Outcomes in Idaho
900	Methods/Statistics	Victoria Fisher	Non Student/PostDoc	Extending Intersectional Methods to Population Health Research
901	Methods/Statistics	Hillary Acuna	Non Student/PostDoc	Participation in Enrollment Interview and Risk of Bias in a Multicenter Pediatric Network Evaluating Maternal COVID-19 Vaccine Effectiveness in Infants <6 Months
907	Methods/Statistics	Jonathan Sterne	Non Student/PostDoc	Optimal sampling strategies for observational epidemiologic studies using big data
913	Methods/Statistics	Sarah Conderino	Non Student/PostDoc	Evaluating methods for imputing race and ethnicity in electronic health record data
915	Methods/Statistics	Stacey Alexeeff	Non Student/PostDoc	Performance of Bayesian Kernel Machine Regression (BKMR): A Simulation Study
919	Methods/Statistics	Jingxuan Wang	Student/PostDoc	Sociodemographic, health-related, and clinical characteristics and their associations with mortality among All of Us participants compared with the United States general population
920	Methods/Statistics	Syeda Naqvi	Non Student/PostDoc	Examining Child Welfare Agency Effects on Youth Sexual Initiation: A Multilevel Analysis
931	Methods/Statistics	Stephanie Armbruster	Student/PostDoc	What goes wrong in prediction models if you ignore mortality?
932	Methods/Statistics	Daniel J Carter	Student/PostDoc	Issues in measurement and causal modelling of complex social exposures: examining typologies of violence in young people in Luwero Uganda
934	Methods/Statistics	Kelly Fung	Non Student/PostDoc	Tree-based scan statistics to evaluate drug safety in pediatric populations: sulfamethoxazole/trimethoprim as a positive test case
937	Methods/Statistics	Imre Janszky	Non Student/PostDoc	Random error units, a novel method to express random error in epidemiological studies
939	Methods/Statistics	Michael Elliott	Non Student/PostDoc	Obtaining a Probability Sample of a Pregnancy Cohort of Births
942	Methods/Statistics	Tongtan Chantararat	Non Student/PostDoc	Much ado about nothing? Do we need harmonized census tract data to study longitudinal associations between neighborhood conditions and the health of individuals?
947	Methods/Statistics	Michelle Flesaker	Student/PostDoc	Cognitive data harmonization across two racially diverse cohorts in the United States
